

John D. Cox

John D. Cox is a veteran science writer who for several years has focused his work on weather, climate and the environment. He has written extensively about such climate events as El Niño and such hotly debated climate issues as global warming.

John is the author of the acclaimed ready-reference *Weather For Dummies* published in 2000, *Storm Watchers*, a popular history of meteorology published in 2002 by John Wiley & Sons Inc., and most recently, in 2005 by Joseph Henry Press, *Climate Crash: Abrupt Climate Change and What it Means For Our Future*.

A member of the National Association of Science Writers, he was a 1995-'96 Knight Science Journalism Fellow at the Massachusetts Institute of Technology.

He has worked for many years as a daily journalist in several bureaus in the western U.S. for United Press International, in London as an editor of the western hemisphere service of Reuters Limited, and in California as a senior writer for The Sacramento Bee.

He lives in Sacramento.
